i have been hiking alot in the woods around my house. there are warning signs about rattlesnakes on the fences saying to be careful. ive been digging in woodpiles and looking under rocks hoping i can find one as a pet. i was wondering how poisonous they really are. this old man at the bar told me that theyre not really that dangerous and theyre posion doesnt even do much to you. he says a bee sting hurts worst. i want to plan a picnic and a hike with a girl i like because she likes the outdoors but she is afraid of snakes and i want to let her know that the snakes arnt dangerous. i told her you can pick them up like a cat when their sleeping and they wont know it. also if you see one can they follow you fast and can they jump high? what is the best place to catch one. or shouold i just plan a diffrent date. thanks for any advice

So i met this girl a couple weeks ago and we really hit it off. Basically the first time i met her we became snuggle buddies, and the second time the same thing went down. But then a few days ago she was the complete opposite and wanted to have nothing to do with me. Everyone tells me she is a big tease, so i'm planning on giving her a taste of her own medicine. Im not gonna text her this whole week and im gonna try and avoid hanging out with her next weekend and see if she notices. Is this a bad idea? The thing is i was invited to a birthday party thats she's also going to next weekend. Ultimately i'd like a hookup and possibly a relationship out of this, what should i do?

So I have been seeing an awesome girl for about 2 1/2 months and the chemistry has been amazing. She just moved here in December from a different state. I found out recently that she left a relationship back home and she told me that she needs closure. The EX is coming to visit for a day next week, and I am very conflicted on how to feel about it. Can anyone give me some insight on how to deal with this? It would be greatly appreciated!

The thing about online dating is, most of the new dating sites on the Internet now free or paid. Think that just because you have to compete with all of the other well known name dating sites. You have to buy or purchase fake profiles, that is 100% unfair to the members who sign up for their service especially for a paid service. For example I do reviews on dating sites to see which one's are fake. If you have never heard of a dating site especially if it isn't free then if they have

millions of members, they don't offer trial service or they need your credit card then it's more than likely fake profiles. On the other hand if they offer a trial service, it's 100% free or they don't have millions of users then you can believe that site is 100% authentic with its members. Remember dating sites that say they have millions chances are you have heard of it before, but if you have not but like the name and what you see but they do not have a lot of members then those are the sites that will have real profiles and the best chances for you to meet someone. The two newest online dating sites I have researched are FaithFulMeeting
Dating Cafe Lounge
Both are 100% Free they are very new so they have real profiles, but the best thing about these two new sites you keep your page position no matter how many people sign up after you. If its a million people who sign up after you and when you signed up you where 2nd, then that's where you will remain until you unregister.

Love is amazing ; it is one of those beautiful 'diseases' of the heart. When you teach yourself to be a loner, definitely your heart will turn cold and you will not want to associate with others. You will become a very callous person, and believe it or not you do not want that to happen to you. Therefore, to prevent this from happening, geniuses have come up with sites where you can make friends and of late you can even date. One of these websites that really stands out is www.timhop.com. This is the best site for Vietnamese girls dating. Lonely hearts are deadly and

for that reason the Vietnamese cupidsays that you should get out there and have fun by making new friends and others you can date.

View Forum Message <> Reply to Message

Hey, I have a few questions for all women out there. I am looking for a variety of perspectives when it comes to meeting & attracting the man (men) of your dreams. Whether you've succeeded or still working on it I am sure you have something valueable to share.
1. What would be your dream scenario/outcome? In detail, exactly what kind of guy are you looking for?
2. What have or haven't worked for you so far?

3. What do you think the solution is? What would you like it to be?
4. In this context, what are your biggest fears and frustrations? Be as specific as you can.
Hopefully this will make you contemplate things you haven't considered before and be helpful to others as well. Thanks in advance.

TIMHOP is popular for the thousands of Vietnamese girls that it has to offer to the whole world. The next time you are online visit the site and you will meet so many Viet single boys and girls looking for fun and friendships just like you are. There is not limitation to the number of people you can meet. You can flirt with the ones you meet, date others and eventually get married to one of them. If you have always been longing to be married to one of the many Viet girls you have seen on TV, then your wife might probably be waiting for you on this site.

I agree with others. Girls always like to go on a date, and this is one of the best way to win their heart. I think the choices you have made are wrong that's why your girl is not interested in dating outside. I think you should ask about her likes and dislikes. Then plan a date. If you want to get some dating advice then you can also go to some date planners they will help you to arrange a memorable date.

I have some interesting ideas regarding this
1.) Take out an in a newspaper or magazine you know your girlfriend reads .
2.) Hire a skywriter to spell out your proposal
3.) Arrange a party with friends and family make a small picture clip for her and propose in front of everyone.
4.) Play treasure hunt with her, make clues for her and at the end in the treasure place a card with the beautiful lines of the proposal.

Are you sailing smoothly in your teenage years, or facing the usual teenage problems? If you are a parent, then is your teenager able to cope up with the problems in his or her life?

I understand that this phase of life can be quite turbulent and is indeed a testing time for any teenager, or for that matter, even for their parents.

Even if you aren't a teen or the parent of a teen, you were a teen once, so you too can relate to this post, isn't it?

Teenage problems have always been there, though their nature and type have gone through changes over the years.

Presently, the teenage life is marred with issues like drug abuse, violence, relationship issues, behavior problems and many others.

As a teen, are you facing any of these?

As a parent, are you troubled by your teenager's problems?

I really feel bad for the teens and all that they undergo. Aren't such issues too much for a person, who has just begun to understand life?

I belief an online dating service site should be safe and reliable. There are many scams happening around and it is our call to be careful. The most important thing to be careful about is to check whether the site is trustworthy, if you are looking for a serious relationship in a professional matchmaking service site. It is easy to get deceived by fake people with fake accounts in sites like these! Premier Introductions is the dating service in Toronto that I rely on and I found it trustworthy enough!

Personally I don't believe that there is popular online dating sites in the Internet that do not have

scams at all. The only way to achieve the number of scam profiles as low as zero, would be to verify identify of every member. However this obviously contradicts to the nature of online dating where people prefer to stay anonymous. As far as I remember from my research that I have conducted a few years ago, literally all dating sites that I have tried were full of scams! The only way to survive was to start conversation with series of "go/non-go" questions, that scammers can never answer correctly. For example, if one is claiming to live in the city of San Diego but actually resides in Nigeria, then he/she have no clue about the city infrastructure. So asking a few questions about his home, his school, cafes and cinemas usually gives you a good understanding. Of course its better to do via online chat so one have no choice to use Google or ask someone. For me it worked.. So unless you are so "hungry" that just go ahead and do not pay attention to such checks at all, you are in safety. While in the other case you might get in trouble
Does this make sense for you?

Dear Tech Support,

Last year I upgraded from Boyfriend 5.0 to Husband 1.0 and noticed a distinct slowdown in overall system performance, particularly in the flower and jewelry applications, which operated flawlessly under Boyfriend 5.0. In addition, Husband 1.0 uninstalled many other valuable programs, such as: Romance 9.5 and Personal Attention 6.5, and then installed undesirable programs such as : NBA 5.0, NFL 3.0 and Golf Clubs 4.1 Al so Conversation 8.0 no longer runs, and House cleaning 2.6 simply crashes the system. Please note that I have tried running Nagging 5.3 to fix these problems, but to no avail. What can I do?

Signed,
Desperate

DEAR DESPERATE,

First, keep in mind, Boyfriend 5.0 is an Entertainment Package, while Husband 1.0 is an operating system. Please enter command: ithoughtyoulovedme.html and try to download Tears 6.2 and do not forget to install the Guilt 3.0 update. If that application works as designed, Husband 1.0 should then automatically run the applications Jewelry 2.0 and Flowers 3.5.

However, remember, overuse of the above application can cause Husband 1.0 to default to Grumpy Silence 2.5, Happy Hour 7.0 or Beer 6.1. Please note that Beer 6. 1 is a very bad program that will download the Farting and Snoring Loudly Beta.

Whatever you do, DO NOT, under any circumstances, install Mother-In-Law 1.0 (it runs a virus in the background that will eventually seize control of all your system resources.)

In addition, please do not attempt to re-install the Boyfriend 5.0 program. These are unsupported applications and will crash Husband 1.0.

In summary, Husband 1.0 is a great program, but it does have limited memory and cannot learn new applications quickly. You might consider buying additional software to improve memory and performance. We recommend: Cooking 3.0 and Hot Lingerie 7.7.

Good Luck!

I am also writing some tips that you should keep in mind on first date

Finding the piece of food in your date's teeth more interesting than what they are saying.
Being on a date and wishing you were on the same date ... just with somebody else.
Taking time out to look put together and your date being a stupidity about it.
Going on a date with someone so boring you forget their name as soon as it's over.
Lateness - the date is basically over before it even begins.

Thanks

Funny answers here. We installed two security cameras in out of reach hard to throw rocks at (and hit) areas so I can get a good look at the vehicle or a person's face as they enter.
Better than cameras - I have 2 big dogs which I routinely allow out to walk in front of my house. Talk about a deterrent - everyone knows they live here and most of the so called bad asses in the neighbourhood never walk on our side of the street. Good protection.

RESPECT- The last thing a man wants is a woman who lets us down, embarrasses us and makes us out to be fools, especially in public
SENSE OF HUMOUR - This will forever remain a priority for any man. We work hard, we put up with a lot, and we need a woman who will put a smile on our faces when things are gloomy, and make us laugh when things are down.

Remember it`s an investment. Yes you are paying but whatever you shell out is worth it.Find out what she is interested in. This will keep the conversation going if you run out of things to say. For example, if she likes dancing, then maybe ask "So how is your dancing going?" or something of the like.Compliment her, tell her she is beautiful - not sexy! Compliment her personality (that never hurts) but don't overdo it or you will loose all sincerity. Casually drop these compliments in over the date.If you have dinner, excuse yourself go to the men's room and check you haven't got any food on you or in your teeth. Girls don't kiss guys with gunk in their teeth or dirty faces.

Love is true devotion to someone beyond yourself. Love is a passion; love is kind, trust respect and truth. Love is when you think that every single bit of a person is amazing. Words can't describe love fully. Love is an emotion. Love is life. Without love life has no meaning. That's what love is.True love is when you love someone more than yourself and ready to do anything for them.

True love is when you find yourself thinking of that person always, caring for him/her. True love happens when the partners love, respect and trust each other.

Hard to answer this one, because you do not give the girl's age. I will take a guess her age to be around 15 since you say that she has breast. Two things that may explain this. One normal, the second one you need to be aware of and ensure that you protect yourself from at all times u. I think the mom is behind this conspiracy, she taught her daughter to seduce you. She was behind all this. If you were not a fresh boy, then this lady would never have applied such a cunning method. You don't even have to do anything, she just has to say that you did. I do hope it is the first one and not the second. I hope this helps.

If she loves to hang out with you that means she thinks of you as a true friend and the dates that you guys had, she might be thinking it as a friendly get together. Give the girl some more time because she might be just saying that on the outside. I think you are dating and some people date a long time before a relationship. I guess she is keeping her options open so as not to rush into anything or have to answer to anyone. But maybe she's like me and wants to go on dates, but doesn't want to be tied down in a relationship. If you're looking for a relationship, then this girl might not be for you.

I would also recommend this one https://mymagicbrides.com . Reliable, safe site I currently use and feel satisfied with. It perfectly suits people of business, who suffer from lack of time but still want romantic relationships.
