The thing about online dating is, most of the new dating sites on the Internet now free or paid. Think that just because you have to compete with all of the other well known name dating sites. You have to buy or purchase fake profiles, that is 100% unfair to the members who sign up for their service especially for a paid service. For example I do reviews on dating sites to see which one's are fake. If you have never heard of a dating site especially if it isn't free then if they have millions of members, they don't offer trial service or they need your credit card then it's more than likely fake profiles. On the other hand if they offer a trial service, it's 100% free or they don't have millions of users then you can believe that site is 100% authentic with its members. Remember dating sites that say they have millions chances are you have heard of it before, but if you have not but like the name and what you see but they do not have a lot of members then those are the sites that will have real profiles and the best chances for you to meet someone. The two newest online dating sites I have researched are FaithFulMeeting
Dating Cafe Lounge
Both are 100% Free they are very new so they have real profiles, but the best thing about these two new sites you keep your page position no matter how many people sign up after you. If its a million people who sign up after you and when you signed up you where 2nd, then that's where you will remain until you unregister.
