I'm going to the states and visit my boyfriend I met in a foreign dating event last year. But, I'm quite nervous, it's my first time to ride an airplane. They say it's good inside the plane but still, you cannot deny the uneasiness a first timer will feel. Tell me, what preparations should be done (if there be any). Call me ignorant but I just want to let you know how I feel about this. Should I take some kind of pill to lessen the fright regarding my first flight? Thanks!

you don't need to worry about the airplane ride its way more comfortable than other transport services, feel free and enjoy your first airplane ride.
